Science

1) Draw a diagram of Water Cycle

***Material required:-** Thermocol plate (white),chart paper,glue , sketch pens , scissors

*** Sources:-** Market

*** Learning outcomes:-** Enables the availability of water for all living organisms and regulates weather patterns on our planet. ,Hand – eye coordination.

*** Process:-**

Print out the template, colour it in and cut it out. ...

Stick your water cycle to the paper plate with glue and make a hole in the middle, where the mark is.

Fix the “water indicator” in the middle using a split pin.

Turn the water indicator and find out how the water cycle works.

2) Project – Make a bunny by the Newspaper

- **Material required:-** News paper, glue, scissors, sketch , colours
- **Sources:-** Market
- **Learning objectives:-** A newspaper bunny making project can offer several learning objectives, including fine motor skill development, spatial reasoning, and understanding of basic shapes and forms. It can also promote creativity and recycling awareness.

- **Process:-** To make bunny from newspaper, start by finding or drawing an animal shape, like a bunny, on a sheet of newspaper. Cut out the shape and consider using different newspaper sections for varied colours or textures. You can then glue the newspaper shape onto a coloured background paper for a more vibrant look. Add details like eyes, ears, and other features using coloured paper .
